Canon 6" Reticle Cassette

features of the **Desert West**

Canon 6" Reticle Case

- Cassette is made out of Superior Anti-Static performance plastic
 - Transparent
 - Dissipates a static charge quickly
 - Static dissipated Ions are implanted in the plastic instead of spray on ESD
 - Holds one square reticle using minimal Anti-Static surface contact points
 - Eliminates surface scratching

- Designed to eliminate particle generation and accumulation at the contact points of the reticle
- Heavier and wider bottoms to eliminate reticle library movement errors
- Fewer Errors with the robot pickup within the library
- Elimination of reset and calibration time
- Single latch was designed to unlock and lock more efficiently which helps eliminate lock and unlock errors
- Cleaned and double bagged in Class 10 cleaning facility
